

SYSTEM PLAN
BUILDING AUTOMATION – DLS ECKLITE SC xx-ENC

Each level can be operated individually. Networking occurs exclusively via standardised protocols.

- modular system in each level
- peripheral controller operation
- no product restrictions for Bus systems

ECKLITE Controller

As Group or in Aktor casing with socket available

Switch plan ECKLITE Controller
 See also description for ECKLITE Controller and DLS ECKLITE SC

RS 485 - MODBUS

BLIND TERMINAL with SOFTWARE OPTIONS

Solar incidence tracking
 Time-programs
 Glare control
 etc.

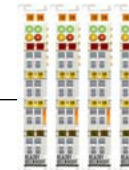

MODULAR EXPANSION

Module (digital and analog) for :
 Group switch
 Brightness sensor
 Temperature
 ... etc.

MODULAR EXPANSION

Module for :
 Bus integration (EIB, LON, DALI ... etc.)
 general Sensor and Aktor
 ... etc.

Ethernet 100Mbit

VISUALISATION

PC or Touch panel display

- VISUALISATION
- Central operation
 - Statusdisplay
 - Group management
 etc.

MODULAR EXPANSION with SOFTWARE OPTIONS

Artificial light control, Light management
 Heating, Air-conditioning
 Energy management, Building automation
 Facility Management
 etc.
